Objective

Curious and driven engineering student passionate about merging creativity with technology to design user-centered digital experiences. Interested in exploring AI-powered solutions, app design, and real-world innovation through collaboration and continuous learning.

Education

B.V. Raju Institute of Technology

Narsapur, Medak district — 2024–2028

B.Tech in Computer Science and Engineering

CGPA: 8.45 / 10

Sri Chaitanya Junior College

Hyderabad — 2022–2024

Intermediate – 93.7%

RBVRR High School

Nizamabad — 2022

State Board – 9.0 CGPA

Technical Skills

- Programming Languages: Python, C, Java (OOPs), SQL (Basic)
- Tools: VS Code, Tableau
- Core Areas: Logic Building, Problem Solving, Design Thinking

Projects

AI Resume Screening System

Developed an AI-based Resume Screening System using Machine Learning and NLP to analyze resumes and match candidate skills with job requirements efficiently.

Technologies: Python, Machine Learning, NLP, Flask, HTML, CSS.

Silent SOS Women Safety System

Built a women safety application with silent SOS activation, tap detection, and real-time location tracking to send emergency alerts instantly.

Achievements

- Certified in C Programming, Python, Java Foundations, Data Structures, HTML, CSS, JavaScript.
- Achieved top positions in various inter-college sports competitions and represented the college women's basketball team in multiple tournaments and events.
- Participated in the college R&D Showcase and demonstrated a women safety application with real-time emergency tracking.

Languages

English, Hindi, Telugu, Basic understanding of Marathi and Kannada

Interests

Artificial Intelligence, App Development, UI/UX Design, Innovation Challenges
